

Master's Project Titles

1. To evaluate the stakeholder engagement in government or public funded projects.
2. Research sustainability of Projects in the Arctic exploring and Development.
3. Research on Public Private Partnership (PPP) Arrangement Modal on implementation of Power Projects in Tanzania
4. Project Management and Sustainable Design: Assessment into EU green building regulations and strategies implemented in Cyprus Construction Industry.
5. A development of the performance measurement framework for project management in Information and Communication Technology projects in engineering companies
6. Critically evaluate the importance of measuring project success beyond the triple constraint framework in heavy projects
7. Investigation into the success rate of large scale agile transformation in financial service companies
8. Implementation of Control Techniques of TQM in Construction Industry: Comparative Analysis between developed and developing countries
9. Propose a new Project Management Template for the Aerospace Industry.
10. An investigation into project management for international construction in china
11. A critical investigation into stakeholder engagement in Nigerian Government projects. A comparison between Brass Ing project, Nigeria and Tata Steel Company Netherlands.
12. Research the formation mechanism and prevention strategy of social risk in Chinese construction projects
13. A critical analysis of the participative leadership style and its impact on project outcomes (a case study of Bulsar engineering and Wooley gmc)
14. Assessing the Feasibility of the Triple Bottom Line in Sustainability of Contracting in Project Management in the United Arab Emirates
15. Evaluation of Project Management Tools in Construction Companies in Sultanate of Oman
16. An Evaluation of Project Management Contents for Business Plan Templates for UK Start-up Companies.
17. Evaluation of water supply project delivery plan by Cross River Basin Development Authority in Nigeria
18. Improving construction Project Management in Oil and Gas sector in Iraq
19. An evaluation of benefit realization plan of joint venture megaproject in oil and gas sector in Nigeria
20. Investigation of Contractual Risks of China's State-owned Construction Enterprises in International Project under The International Federation of Consulting Engineers Contract Conditions
21. Research on Public Private Partnership (PPP) Arrangement Modal on implementation of Power Projects in Tanzania
22. Investigation of Contractual Risks of China's State-owned Construction Enterprises in International Project under The International Federation of Consulting Engineers Contract Conditions
23. Assessing the Feasibility of the Triple Bottom Line in Sustainability of Contracting in Project Management in the United Arab Emirates

24. Study of Project management in the Electric Vehicle Industry -- The case study of TESLA
25. Evaluating the Influence of Transformational Leadership on Project Success
26. Application of PDCA cycle impacts on knowledge development and experience feedback in Construction Project – Critical evaluation in the case of Mc Laren Construction Group
27. Critically justify the Innovation and new product development process in small and medium size food enterprise in the UK.
28. Evaluating The Impact of Leadership on Students' Groups' Performance in High Educational Institutes (Case Study from Engineering Project Management msc. Students at Coventry University)
29. Project Risk Management in Innovative Product Development Process
30. Supply Chain Integration in the project based environment: A framework for successful implementation in the UK Construction Sector
31. Why do engineering projects fail? And how implementation of project management can enhance project success.
32. A critical evaluation of Oil and Gas projects in Iraq under the Technical Service Contract with International Oil Companies and the Contract of National Oil Companies.
33. Examine the existent issues and application of contract management in construction project in China.
34. The application of lean tools and techniques to the operations of a brewery - a case study of Accra brewery limited
35. The potential of applying project management principles to a master dissertation project
36. An Assessment of Project Management Procedure in a GIS Project
37. Investigation of the effect of risk management techniques for innovative new product development projects.
38. An investigation into the varied methods of teaching project management which lead to a successful project manager
39. The implementation of prince2 and agile methodologies in different organizations
40. Evaluating the effectiveness of outsourcing key logistics activities on AV Thomas & Company Limited.
41. An Investigation into the impact of implementing TQM in Indian Manufacturing sectors
42. Evaluating the effectiveness of two project crashing techniques in project performance: A case study comparison of construction and the upstream oil and gas sector in the United Kingdom
43. Analysing the impact of knowledge management in project management construction
44. Health and safety practices in project management in united arabs emirates: what are the failures
45. A development plan for the decommission of offshore oil and gas platforms in the North Sea
46. An investigation into time and cost overruns of public buildings projects in Nigeria. A case study of Borno state
47. The extent to which the recent UK coalition Government health care reforms affect the National Health Service and its supply chain management and purchasing processes
