

## Virtual – Meet the Pet

This is a simple activity to help introduce people in virtual situations.

Simply ask each delegate to do one of the following:

- Get their pet on their lap and show everybody
- Share a picture of their pet
- Talk about a past pet
- Describe their perfect pet

For delegates without pets, they can describe their perfect pet, and make up imaginary situations that their pet gets into!

Get the delegate to recount a story such as:

- What they have done with their pet
- Where they like to take their pet
- Their pets strange diets!
- The mischief that their pet has caused

When one person has finished showing their pet, they can nominate another delegate to take their turn next.

Whilst the activity is ongoing, the facilitator can check that everybody has taken part, and manage the screen sharing/microphone rights as required.
